23rd EAHM Congress in Zurich / 9th and 10th September 2010

## Focus: Excursion programme

We have put together an attractive social excursion programme for you. Starting on Wednesday afternoon, you'll have the opportunity to see various types of hospitals. First you will visit the heart surgery department at University Hospital Zurich followed by either the emergency surgery and acute geriatric healthcare departments at Zurich's city hospital Stadtspital Waid or you can acquaint yourselves with the innovative healthcare models of the Department of Psychiatry at University Hospital Zurich – the choice is yours.

On Thursday morning, there'll be a guided tour of Zurich where we'll show you the city's famous highlights for example Grossmünster church. In the afternoon, you'll have the chance to visit the Thomas Struth exhibition at the Kunsthaus museum. In the evening, we've organized a reception by the government of the city and the canton of Zurich at a restaurant on the lakeside. On Friday, we'll take you on a trip to Eastern Switzerland. Who knows – maybe we'll even reveal the secrets of Swiss cheese making during your visit to a renowned cheese dairy. To mark the end of the official part of the Congress, in the evening there'll be a dinner packed with culinary and musical highlights. Last but not least, on Saturday we'll show you the Swiss mountains in all their glory – where you'll be able to enjoy the outstanding views from the glacial paradise of Mount Titlis.
